## **Year 2 Course:**

The Year 2 WEMT course is designed to advance our students beyond the school curriculum, and elevate them to the high academic standards we aim for at Pre-Uni. As well as getting ahead in reading comprehension and numeracy, students will be introduced to a new writing module, which prepares them for the tasks they will encounter in the NAPLAN, OC, and Selective High School Placement tests.

## **WEMT Course**

Due to the nature of our advanced curriculum, this course will require a significant weekly commitment to module work in English, Maths, and Thinking Skills.

The new **Writing** module focuses on diversifying students' vocabularies, using different tenses, and solidifying foundational writing skills.

**English** : lessons will focus on reading skills, comprehension, and answering multiple-choice questions.

**Maths** : lessons are essential for developing a thorough understanding of mathematical theories, principles, and formulas.

**Thinking Skills** : lessons will focus on both verbal and non-verbal reasoning.
