Year 5 STTC Course:

The Selective Trial Test Course is a comprehensive program designed for Year 5 students to prepare them for the Selective High School Placement Test.

Students will attempt a trial test each week and subsequently review the questions + solutions with our teachers, focusing more heavily on the difficult questions.

By taking the course, students will be able to practise SHSPT style questions under exam conditions and learn how to manage their test time efficiently, minimise errors, overcome exam nerves and perform at their optimum level in the actual exam. It will help them to build their confidence to succeed in the selective high school placement tests.

Students' test results will be available on Cyberschool immediately after each session. Their writing test submissions will also be marked and the reports made available on Cyberschool as soon as possible.
