Year 6 STTC Course:

The Selective Trial Test Course is a comprehensive program designed for Year 5 students to prepare them for the Selective High School Placement Test.

Students will attempt a trial test each week and subsequently review the questions + solutions with our teachers, focusing more heavily on the difficult questions.

There are two tests each week – Mathematical Reasoning + Thinking Skills every second week, and Reading + Writing on the alternate weeks. There is an additional fortnightly Vocabulary test for which students are expected to memorise the provided vocab lists.

Students' test results will be available on Cyberschool immediately after each session. Their writing test submissions will also be marked and the reports made available on Cyberschool as soon as possible.
